

Meet Sebastián!

**Brookhaven / N. Atlanta GRSP
Student to arrive this week!**

August is Membership and New
Club Development Month

Our 2019-20 GRSP Student, Sebastián, will arrive in Atlanta
at 1:30 p.m. on Friday, August 9.

Please be encouraged to join fellow Rotarians in meeting
Sebastián at the airport if that fits your schedule.

The North Atlanta Club will host a welcome reception for
Sebastián at the 57th Fighter Group on August 22nd from
5:30p - 7:30p. All members of our Club are invited; Nathan
just asks that I give him a head count so that they can get
that information to the restaurant. Please email me at
awshaffer@gmail.com if you will attend the welcome
reception.

This week's speaker

**BRETT STEWART: CERTIFIED EOS
IMPLEMENTER**

Brett's passion is helping entrepreneurs get what they want
from their business. After a successful corporate career in
consulting, turn-arounds and as CFO of a billion-dollar
insurance company, Brett decided to pursue his dream of
becoming an entrepreneur. Since then, he has started and
run three different businesses.

The last of those was a healthcare company Brett took over
and turned around from a \$400k loss to a profit of \$1.2
million in four years. But profitability did not mean success.

The business lacked focus, and instead of being run by a
functional, cohesive team, every decision went through
Brett. That all changed when he read Traction and learned
about The Entrepreneurial Operating System (EOS). After
using EOS in his business, and seeing its power first-hand,
Brett set out to help others get what they want from their
businesses.

Brett became a Certified EOS Implementer in 2015, and he
now spends all his time coaching entrepreneurs and their
teams, helping them implement EOS so they can reach their
goals and enjoy the journey. Brett pulls from his deep
financial expertise, successes and failures as a business
owner (because the failures are where you really grow) and
training as an elite endurance athlete to form a coaching
style that drives to the root of issues, demands performance,
and builds healthy, cohesive teams in the process.

Brett earned bachelor's degrees in Mathematics and
Economics from Vanderbilt University and a Master of
Business Administration from the Fuqua School of Business
at Duke University. He grew up in Huntsville, Alabama, but
after almost 30 years in the Atlanta area, considers himself a
native. He lives in the suburb of Kennesaw with his wife of
25 years Tricia, his daughters Allie and Cassidy, and dogs
Buddy-Baker and Roxie. In his spare time, he enjoys hiking
and cooking with his family and racing mountain bikes with
his friends.
